

**DEMEX**  
Demolition | Excavation | Remediation

# WOLLEMI PLACE, TWEED HEADS - STAGE 1

**MAY 2020 - SEPTEMBER 2020**  
**CLIENT: MCNAB**  
**CONTRACT VALUE: \$0.7 M**

DEMEX was engaged by McNab Constructions to complete demolition and earth works at Wollemi Place, Tweed Heads.

The demolition scope of works consisted of demolition of existing structures, including sheds, concrete slabs, and footings of a decommissioned drive-in movie screen.

Project earth works required bulk excavation (cut and fill) to level the ground, during which DEMEX discovered contamination (asbestos contaminated soil) which halted site works and resulted in splitting the project works into multiple stages.

Stage 2 will consist of decontamination of the soil, dewatering and completion of bulk excavation work.

The final stage of the project will be the completion of road works.

Stage 1 was carried out adhering to Covid-19 social distancing protocols and border closures without disruption to the demolition program.
