

AUSTRALIA FAIR COLES EXPANSION

DEC 2016 - JAN 2017
HUTCHINSON BUILDERS
\$0.47 M

DEMEX was engaged as a subcontractor by Hutchinson Builders for works carried out at Australia Fair Shopping Centre in Southport on the Gold Coast.

All works were completed during the busy pre-Christmas December period while the shopping centre remained fully operational. Night works were required for the removal of major structures.

The scope of works undertaken for the Coles supermarket expansion included the demolition, removal, and disposal of tenancies (including a significant amount of concrete slab) and external structures (awnings) to allow for redevelopment of the complex.

The project demonstrated DEMEX's capability to work in a live environment giving consideration to the centres tenants and customers to ensure disturbance from the project was minimised.
